

# FSL T5 LED TUBE – 16W DATASHEET

T5 LED Tube (Illustration)

The FSL T5 LED Tube 16W is an energy-efficient lighting solution designed to replace traditional fluorescent T5 tubes. It delivers stable performance, long lifetime, and uniform illumination, making it suitable for commercial and residential applications.

Parameter	Specification
Product Type	T5 LED Tube
Rated Power	16W
Input Voltage	AC 180–265V
Frequency	50 / 60Hz
CCT Options	3000K / 4000K / 6500K
Tube Length	Approx. 1200 mm
Tube Diameter	T5
Luminous Efficiency	High efficiency LED
Lifetime	25,000 hours
Operating Temperature	-20°C to +50°C
Material	Aluminium + PC Cover
Installation	Easy replacement for T5 fluorescent tube
Environmental	Mercury-free, eco-friendly
Certification	CE / RoHS

## Applications

- Offices
- Retail shops
- Residential lighting
- Hotels and commercial spaces
